

To whom it may concern,

I would like to make a request under the Freedom of Information Act.

The Network for Pastoral, Spiritual and Religious Care in Health is the key chaplaincy body working with NHS England, in order to promote equality for those of different religions and belief groups. The data acquired from this FOI will be collated with the data received from other Trust chaplaincy teams and any data will not be attributed to any one chaplaincy department.

I would like the following information in electronic form.

I would like to request:

Trust Information:

1. Total number of inpatient episodes by recorded religion/belief (April 2018- March 2019)
